Mayank Dabas

B.Tech Ai-ML 1st year Student Exploring Ai and Technology and Coding with Python | interested in developing communication skills | Aspiring Engineer and Physicist

Delhi, India

Summary

As a First Year BTech AiML student based in Delhi,
I am driven by a curiosity for how the world
works, from the fundamental laws of Physics to the digital logic of Artificial Intelligence.
My goal is to bridge the gap between theoretical sciences and practical technology.
I am an aspiring Engineer and Physicist with a focus on:
●)Technical Skills: Building a strong foundation in Python programming and exploring the
basics of AI.
●)Academics: deeply interested in Mathematics and Physics.
●)Communication: I believe that great ideas are only as good as one's ability to explain
them. I pride myself on having top-notch communication skills and the ability to articulate
complex concepts clearly.
I am currently exploring opportunities to learn, connect with mentors, and grow my skills in
technology and engineering. Feel free to connect!

Education

Guru Gobind Singh Indraprastha University

Bachelor of Technology - BTech, Artificial intelligence and machine learning · (August 2026 - August 2030)
